

EYFS Learning Summer 1 2024

This term we are learning about, Around the World

We will be learning about different countries, looking at the world map to see where they are in relation to us and learning about their climates.

Some countries are hot

and some countries are cold.

We will be learning about foods from around the world and, when able, we will be tasting them.

We will be learning what we need to do to eat healthily and keep our bodies strong.

We will also be continuing to learn our sounds in our phonics sessions and learning our number bonds to 10 in our Maths sessions.

We will continue to enjoy our outside area, planting seeds and flowers and our monthly forest schools sessions at Evenly Wood.
