

# FARTHINGHOE COMMUNITY PRIMARY SCHOOL

Main Road, Farthinghoe, Brackley, Northants, NN13 5PA.

These are some websites which may be useful during school closures -

- [Bizzikid](http://www.bizzikid.co.uk) ([www.bizzikid.co.uk](http://www.bizzikid.co.uk)) This site has child-friendly links for all major subjects, as well as games, jokes and an online club. Kids will like the website's friendly character who guides them through every step, and parents' questions are covered in the 'Grown Ups' section.
- [BBC Primary School](http://www.bbc.co.uk/schools/websites/4_11/) ([www.bbc.co.uk/schools/websites/4\\_11/](http://www.bbc.co.uk/schools/websites/4_11/)): The BBC's primary school site breaks down the curriculum by topic and offers a variety of different ways to learn.
- [Homework Elephant](http://www.homeworkelephant.co.uk) ([www.homeworkelephant.co.uk](http://www.homeworkelephant.co.uk)): An impressive resource for every subject and assignment your child is likely to face (if only this existed when we were at school!). Children can search by subject or leave a question for the 'Agony Elephant' to answer later. The homework hints and tips are particularly useful (they can't guarantee your children will listen, but there is some good advice).
- [Natural History Museum](http://www.nhm.ac.uk/kids-only/index.html) ([www.nhm.ac.uk/kids-only/index.html](http://www.nhm.ac.uk/kids-only/index.html)): Most major museums have children sections on their websites, and this is one of the most interactive. Games and fact files are linked with the current exhibitions, and children can take a virtual visit to the museum via the 'Antcam' and intriguing 'Flesh eating beetlecam'.
- [NASA For Kids](http://www.nasa.gov/audience/forkids/home/index.html) ([www.nasa.gov/audience/forkids/home/index.html](http://www.nasa.gov/audience/forkids/home/index.html)): Space buffs will love the NASA website. There is information for children of all ages, with footage from Mars and the International Space Station, interviews with astronauts and news on the latest launches. There are also games and craft activities for younger children.
- Reading Eggs (<https://readingeggs.co.uk/>) - Reading Eggs offers online reading games and activities that are engaging for young children and easy to incorporate into your daily routine. Your child will complete a placement quiz to gauge their reading level but afterwards the activities are self-paced, allowing your child to learn in a way that suits them. This program is ideal for children who are preparing for school or struggling with reading.
- Oxford Owl (<https://www.oxfordowl.co.uk/>) – educational activities, online e- books, and support for parents
- PhonicsPlay (<https://www.phonicsplay.co.uk/>) – a very popular site who have decided to make their resources free in response to the coronavirus crisis
- Touch, Type, Read and Spell (<https://www.readandspell.com/>) - A useful website for teaching children to touch type combined with reading and spelling.
- Weareteacher.com/virtual author activities- Read aloud activities
- @Audible ([www.audible.co.uk](http://www.audible.co.uk)) has a selection of free books
- Joe Wicks - 28 daily PE lessons whilst the schools are closed

Head Teacher:- Mrs Wendy Whitehouse  
Tel: 01295 710406
